CYBER SECURITY FOR SMALL BUSINESS

A SMALL BUSINESS TRENDS study found that small businesses rank cyber security as their No. 1 challenge! The speakers chosen for this series will share their expertise in both the prevention of and the recovery from this constant barrage of cyber threats. The speakers will focus on those technologes identified by small businesses as essential-- phones, laptops, emails, and websites—and present information on:

- Identifying the threat
- > How to guard against it
- Specific tools to use
- Training employees

- How to keep safe on the road
- How to tell if hacked
- When hacked, how to recover
- How to begin cycle again!

"Your hands can't hit what you cannot see." -- Ali
